NON-ASBESTOS PROSCENIUM FIRE CURTAINS FIRE SAFETY

SHOWSDT offers fire curtains and stage friezes of unrivalled quality for a permanent installation. They are installed on prosceniums to protect spectators from fire.

Quality controls are carried out at every stage of production to make them even safer.

These curtains meet or exceed applicable fire and safety requirements, and are made from non-flammable materials (see ASTM E 136). Fire curtains and thermal friezes are available in beige or black.

The fabric is *asbestos-free*.

The fire curtains meet or exceed the following:

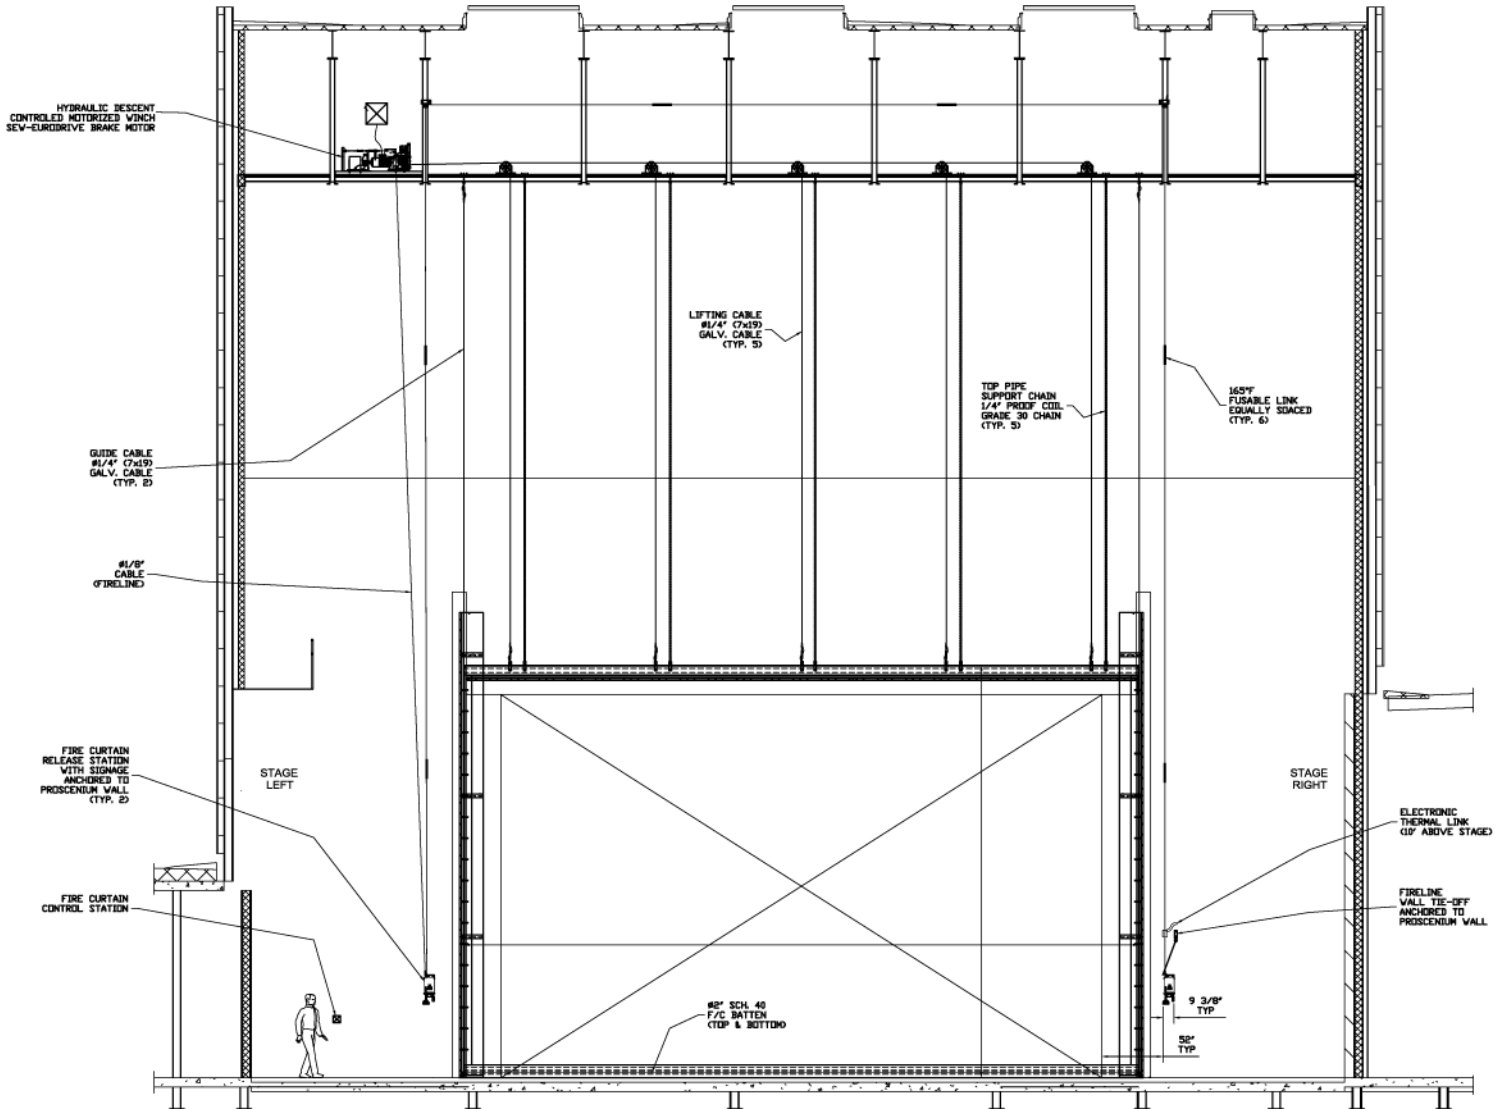

CODES

- IBC (International Building Code-2006)
- NFPA Life Safety Code 101 (2009)
- NFPA 5000 Building Construction and Safety Code (2009)
