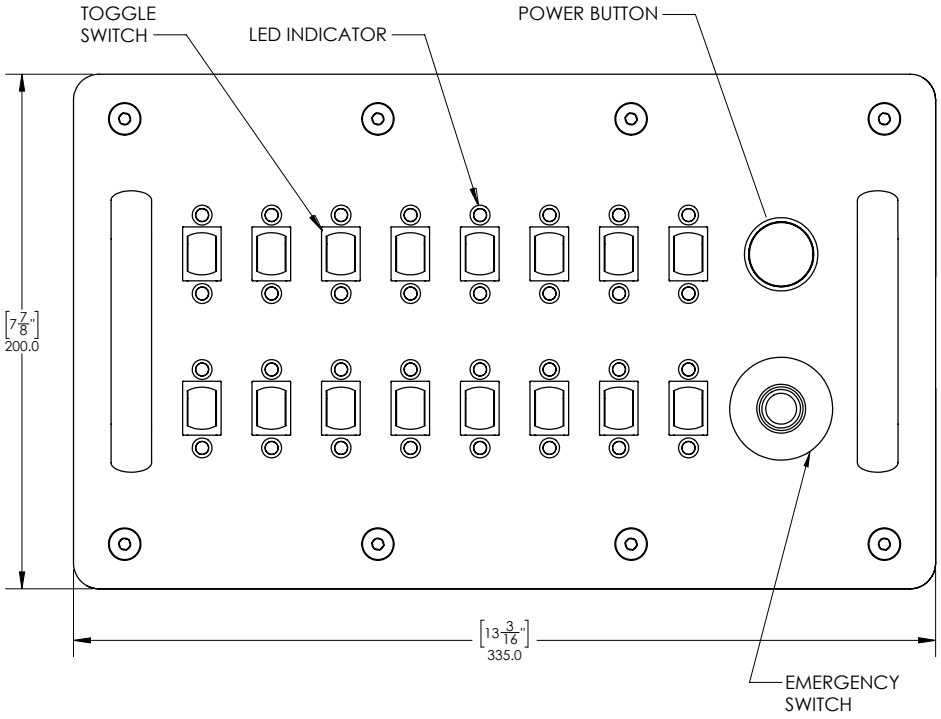
16 CHANNEL CONTROL BOX

PRC-16-MK2



The PRC-16-MK2 16-channel control box has been designed for chain hoist control systems. Its new technology allows connection via an RJ45 connector. Tjami or Veam adapters are available on request.

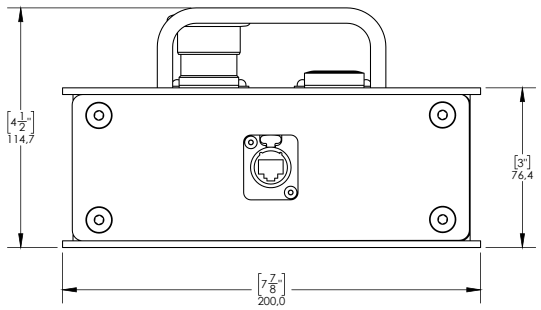
Its design takes advantage of a robust polyamide construction, aluminum surface and ergonomic handles which makes it more economical.

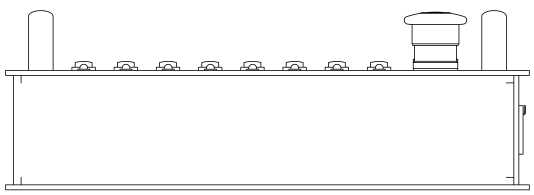
The emergency switch protects the system from unwanted operation. The green power button activate the selected chain hoist channel. The direction switches allow to change the direction of movement of each hoist individually or in groups.

The Standard configuration comes with:

FEATURES

- Integrated E-Stop Button
- Up/Down Rocker Switch 24V Red and Green
- 1 x RJ45 Connector Output
  (Tajimi or Veam adapters available on request).
- Go push buttons
- Handles
- Use POE standard: iEEE 802.3at POE+





DIMENSIONS ARE IN INCHES
