

YO-YO HOIST

YO-YO HOIST

Motorized Hoist

These YO-YO hoists offer a wide range of applications and mounting options, from floor to wall to ceiling.

Construction features such as the welded steel frame and mounting bracket make for a sturdy, durable winch. It also features machined plates to ensure proper cable stacking, and a primary brake with self-locking gearbox. As an option, it can be supplied with a secondary brake to be installed on a common shaft with the drum.

The Standard configuration comes with:

FEATURES

- Available in 1,200 and 2,400 lbs loading capacity
- Available with up to 10 lift lines
- Versatile operation on 208, 230, 460 or 600 VAC 3 phase power
- Average Speed 25 FPM
- 1/4" Wire Rope Size
